

AXISCADES and Dutch Company, E2M Technologies B.V. to collaborate for Full Mission Simulators

AXISCADES to work with Dutch Company E2M Technologies B.V. for flight simulators

Amsterdam/Bangalore, 14th February 2017- AXISCADES and Dutch company E2M Technologies B.V. today announced signing a Memorandum of Understanding (MoU), at AeroIndia2017 to address the growing market for flight simulator in the Indian defence and aerospace sectors.

Under the MoU, both companies will evaluate and explore opportunities to address the requirements for full flight and full mission simulators.

Mr Sudhakar Gande, Vice-Chairman, AXISCADES said, “This partnership with E2M will provide us access to established and state-of-the-art electric motion systems required for India's aerospace and defence needs. This is another milestone for AXISCADES as one of the premier aerospace and defence companies of India. It is in line with the company's strategy of building strong partnerships with global leaders in their respective businesses.”

AXISCADES is a licensed defence manufacturer and a preferred Indian Offset Partner (IOP) for high-end strategic technologies for aerospace and defence solutions. This partnership will help AXISCADES increase its contribution in the Make in India business and become an integral part of global OEMs' supply chain delivering simulation solutions.

The owners and lead engineers of E2M Technologies, have more than 20 years of expertise in electric motion systems and control loading systems for a variety of applications, such as certified flight simulation (compliant with worldwide Level D), cabin crew training, ground vehicle simulation, entertainment and testing.

Jan Van Bekkum, CEO of E2M's said: “India is a key market for us, and we are excited to forge this strategic partnership with AXISCADES, which specializes in the Aerospace and Defence markets. We will work together on various opportunities for simulators in India, enhanced by the Make in India initiative for aerospace and defence programmes.”

About AXISCADES Aerospace & Technologies Pvt. Ltd

AXISCADES Aerospace & Technologies Private Limited (AXISCADES) is a niche player focussed on high-end strategic technologies for the aerospace and defense sector with a proven track record. The company has built proprietary capabilities in system integration, design and development of solutions and platforms in the areas of automatic test equipment & test solutions, software and simulations, avionics, electronic warfare systems and paramilitary training solutions. AXISCADES is licensed by the MoD to undertake industrial manufacturing and is an industrial partner to marquee global aerospace and defence OEMs.

About E2M Technologies B.V.

E2M Technologies B.V. is a specialist in simulation products for high quality applications. The two main product lines are electric motion systems and electric control loading systems. Being a highly-focused company, E2M offers excellent flexibility, responsiveness and support. E2M delivers a full range of durable, high quality, state of the art electric motion systems with payload capabilities ranging from 0.5 Ton to 40 Ton. Additionally, E2M delivers a complete range of control loading actuators to accurately reproduce control forces in applications such as steering wheel and braking pedal control for road- and off-road vehicles, and primary- and secondary controls for fixed- and rotary wing flight simulators, both civil and military. E2M Technologies B.V. is an ISO 9001 certified company.
